What’s Happening Week 2?

McNair Research Scholars Program
The UCLA McNair Research Scholars Program is a two-year research-intensive program, for third year and transfer students, that prepares undergraduate students to apply and excel in graduate programs (PhD). McNair Research scholars develop individual research projects under the guidance and supervision of UCLA Faculty Mentors. The McNair Research Scholars Program offers weekly McNair Research Seminar courses as well as the UCLA McNair Summer Research Institute. Research scholarships are presented to McNair scholars as they apply to graduate school, present at academic conferences in their discipline, complete the McNair Research Seminar series, and submit their research for publication. McNair applications are due November 16th at 12pm. For more information about the McNair Research Scholars Program, eligibility requirements, and info sessions visit: www.aap.ucla.edu/programs/mcnair-research-scholars/
